

ISTOK-AUDIO

## INCLUSIVE EDUCATION

**ISTOK-AUDIO Group of Companies** is the largest Russian manufacturer and supplier of specialized equipment for inclusive education.

Founded in 1994, the company has grown into a diversified holding with its own production facilities.

**Inclusive education** is one of the core business areas for ISTOK-AUDIO. The concept of inclusive education, widely implemented in Russia over the past two decades, ensures that all students, regardless of their physical, mental, intellectual, cultural, ethnic, linguistic, or other features, are integrated into the general education system across all age levels (from preschool to higher education). This allows them to learn alongside their peers without health limitations or disabilities.

Since 2012, ISTOK-AUDIO **Inclusive Education Department** has been equipping educational institutions with specialized assistive tools to create student-friendly environments where everyone can reveal their potential and achieve success.

# ISTOK-AUDIO: WHY CHOOSE US?

ISTOK-AUDIO equipment is installed in many inclusive and specialized educational organizations. We are ready to implement projects **anywhere across Russia and CIS countries**.

We offer ready-made technical solutions for teaching children with **hearing, visual, motor, or mental impairments**.

Our company has extensive experience in outfitting **newly built schools and existing facilities under major renovations** as a part of the current programs of the Russian Ministry of Education.

ISTOK-AUDIO acts as a **general contractor**. Our team is engaged in all project stages starting from architectural accessibility design and ending with material and technical equipping of buildings, adjacent territories, and interior spaces of kindergartens, schools, colleges, universities, and additional education centers.

The company participates in electronic procurement procedures held on federal and regional platforms, supplying equipment to educational organizations under Federal Laws 44 and 223.

We constantly expand our product and service range to support the comprehensive development of general and inclusive education. Our **equipment is certified, safe for children**, and complies with the national Federal State Educational Standards (FGOS). Most high-tech items are listed in the state Register of Industrial Products Manufactured in the Russian Federation.

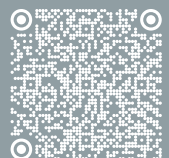

We do our best to ensure that our technical solutions are actively used, simplify the work of teachers, university lecturers, speech therapists, psychologists, and eventually benefit children. You can rely on our **expert support** at every stage of collaboration. Our specialists are keen to assist and offer guidance in all equipment-related aspects.
