

Interactive Integrated Inspired

Transforming Interaction: Anytime, Anywhere.

GEEFIVE HUB

Introducing GEEFIVE HUB:

GEEFIVE HUB is a cutting-edge, all-in-one wireless presentation and collaboration system designed to transform classrooms and meeting rooms into dynamic, interactive spaces. With no need for additional software or complex setups, GEEFIVE HUB empowers educators and professionals to share content wirelessly, collaborate effortlessly, and engage audiences like never before. Whether in schools or corporate environments, GEEFIVE HUB simplifies technology, making it accessible and intuitive for all users.

Key Features

▲ App-Free Wireless Screen Mirroring

Share content effortlessly from up to 16 devices at once—laptops, tablets, or phones—using AirPlay, Miracast, or WIDI. No apps or extra hardware required, delivering stunning 4K visuals instantly.

▲ Dynamic Broadcast System

Effortlessly share your screen or specific content to any room with GEEFIVE HUB or to personal devices like phones and laptops. Capture and compare group work side-by-side, and synchronize annotations in real-time across all connected screens.

▲ Flexible Content Recording

Capture every moment in 720p or 1080p with synchronized audio and video, or livestream to platforms like YouTube with push-pull streaming. Choose versatile modes like Cinema or Micro-lesson, ideal for review or remote learning.

▲ Video Conferencing

Facilitate real-time remote collaboration with built-in video conferencing tools, perfect for hybrid learning or global team meetings.

▲ Efficient Storage Solutions

Store and access files effortlessly with 128GB of built-in storage (expandable to 2TB), USB, or cloud options, complete with automatic backups for peace of mind.

▲ Reliable Wireless Connectivity

Built-in high-density Wi-Fi keeps connections strong, even in busy environments.

Why Choose GEEFIVE HUB?

GEEFIVE HUB stands out as the premier choice for wireless presentation and collaboration.

Here's why:

▲ No Software Require

Share your screen wirelessly without installing any apps or software—perfect for guests or quick setups.

▲ All-in-One Solution

Combines multiple devices into one, reducing costs, complexity, and the need for additional hardware.

▲ Effortless Setup and Use

Intuitive design means minimal training is needed—users can start presenting in seconds.

▲ Scalable and Versatile

Adapts to any room size or type, from small classrooms to large conference halls.

▲ Secure and Reliable

Protect your sessions with PIN-protected casting, admin-level password controls, and encrypted data transmission, ensuring secure and reliable operation.

How to start?

Launch GEEFIVE HUB in a Snap!

Dive into effortless collaboration with our plug-and-play setup—no tech skills needed. Connect, power up, and present in seconds!

1

Plug in and Shine

Hook up GEEFIVE HUB to any screen with an HDMI cable and watch stunning 4K visuals come to life.

2

Power On, Game On

Hit the power button, and the sleek GEEFIVE HUB interface springs up instantly—ready when you are!

3

Share the Spotlight

Present wirelessly, record with ease, or team up in real time—no apps, no fuss.

GEEFIVE HUB in Action

See how GEEFIVE HUB transforms various environments into hubs of collaboration and engagement:

Standard Smart Classroom

Teachers present wirelessly while students interact with content in real-time.

Active Learning Room

Small groups collaborate on projects, sharing their screens to a central display.

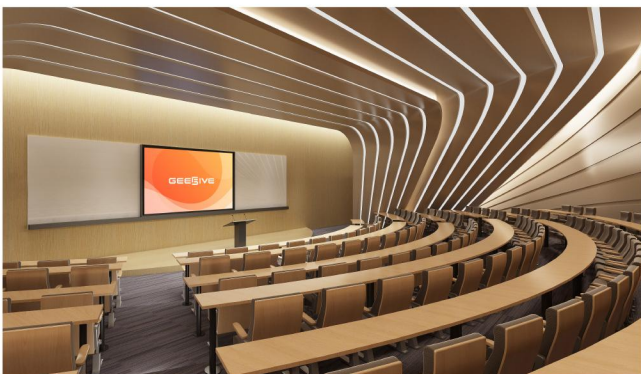

Interactive Computer Lab

Hands-on training sessions where instructors demonstrate software wirelessly.

Professional Skills Classroom

Vocational training with integrated tools for real-time demonstrations.

Advanced Lecture Hall

Large-scale presentations with multimedia support and live broadcasting.

Smart Conference Room

Corporate teams collaborate seamlessly, sharing presentations and video conferencing with remote colleagues.

Technical Specifications

GEEFIVE HUB

Category	Item	Specification
Physical Specs	Dimensions	264mm × 231mm × 61mm (w/ Base) 264mm × 231mm × 51.5mm (w/o Base)
	Weight	1.2 kg (w/ Fixed Base)
System Specs	Antenna Type	Built-in Antenna
	OS	Android 13
	RAM	8GB LPDDR5
	Storage	32GB
Interfaces	Buttons	Power Button x1, Record Button x1
	LED Indicators	Tri-color Power Indicator
	Video Input	HDMI Input (4K60) x2
	Video Output	HDMI Output (4K60) x2
	Audio Interface	3.5mm Line In/Out x1
Wireless Specs (Built-in AP)	Wi-Fi Standards	IEEE 802.11 a/b/g/n/ac/ax
	Operating Frequency	2.412 GHz - 2.467 GHz 5.180 GHz - 5.825 GHz
	Operating Channels	1-1136-64, 149-165
	Max Wireless Rate	2.4GHz Band: 576 Mbps 5GHz Band: 2.4 Gbps
	Modulation	BPSK, QPSK, 16-QAM, 64-QAM, 256-QAM, 1024-QAM
	Max Transmit Power	2.4GHz: 25 dBm 5GHz: 24 dBm
	Power Adj. Step	1 dBm
Connectivity	Wi-Fi Module	AP6275S (Wi-Fi 6)
	Control Interface	RS232 x1
	Power Supply	DC Jack x1 (ID 2.1mm) Input: 12V 3AA Auto Power-on Supported
	Expansion Storage	M.2 NVMe (2280) 128GB (Optional)
	USB Ports	USB 3.0 Host x3 (Type-A) USB 2.0 Device x1 (Type-B)
	Network Ports	LAN: Gigabit RJ45 x2 WAN: 2.5G RJ45 x1
